SUMMARY

UI/UX designer and Computer Science graduate (CGPA 9.078/10) with three internships, patent research and documentation experience, and live client work for businesses in Switzerland, Italy, and the US. Designs responsive websites and mobile/tablet apps in Figma and Wix Studio, from user research and wireframes to high-fidelity prototypes, design systems, and developer handoff. Comfortable with HTML, CSS, and JavaScript, accessibility (WCAG 2.1), and AI-assisted design workflows with manual QA. Google UX Design certified.

SKILLS

UI Design: Visual Design, Interaction Design, Responsive Design, Mobile-First Design, Typography, Color, Grids, Visual Hierarchy

UX Methods: User Research, Usability Testing, Think-Aloud Studies, Heuristic Evaluation, Personas, User Flows, Information Architecture, Wireframing, Prototyping

Design Systems: Component Libraries, Style Guides, Design Tokens, Accessibility (WCAG 2.1 AA), Design QA, Developer Handoff

Tools: Figma (Advanced), FigJam, Framer, Wix Studio, Adobe XD, Claude, Google Stitch, Blender

Front-End: HTML, CSS, JavaScript, SVG, HTML5 Canvas API

Collaboration: Client Communication, Stakeholder Presentations, Agile/Scrum, Cross-Functional Teamwork

EXPERIENCE

UI/UX Design Intern, Brain Quest Consultancy and Training **Apr 2026 – Present**

Remote | Wix Studio, Figma, HTML/CSS/JavaScript

- Design and build production websites for international clients, owning responsive layouts, visual systems, CMS structure, reusable UI, and client handover.
- Redesigned lunchtimefood.ch, a Zurich food delivery and catering brand: structured a three-zone delivery-pricing experience and policy pages, and built a dependency-free HTML5 Canvas animation with reduced-motion support. Scored 92 Accessibility and 96 Best Practices on PageSpeed Insights.
- Delivered content and legal corrections for a Zurich Airport private-jet charter site under a no-redesign constraint, building four brand-matched HTML legal pages and SVG icon variants to fix visibility on dark backgrounds.
- Use AI tools to research platform limits and explore design directions, then verify and manually fix responsive and translation issues before client delivery.

INDO-GLOBAL Winter Intern, MIT Square Services Pvt. Ltd.
(with University of Technology Sydney) **Oct 2023 – Dec 2023**

Remote | Research & Development, Patent Documentation, Basic UI Design

- Worked in a team of two on research and development and patent documentation for “Real-Time AI-Based Voice Enhanced Chat Application for Differently Abled People.”

- Researched and documented the novel features of a web app designed to support communication for differently abled users, through continuous R&D and brainstorming.
- Created a basic UI design for the web app to illustrate the concept.

UI/UX Design Intern, PK Innovatives **Mar 2023 – Apr 2023**

Remote | Figma, Mobile UI

- Designed a mobile-first news app with multi-theme and multilingual support, delivering wireframes, a component library, a style guide, and an interactive prototype in a four-week sprint.

PROJECTS

Estheta, iPad Lifestyle & Discipline App | Client project **2026**

- Turned a client's 52-week self-study system into an iPad-first product: information architecture, dark brand system, high fidelity screens, and interactive prototypes across 8+ sections. Home screen approved after client review cycles. (Figma, Stitch, HTML prototypes)

Marblique, Italian Luxury Marble Brand Website | Brain Quest **2026**

- Designed and built a multi-page luxury site in Wix Studio with a dark visual system, parallax heroes, scroll-reveal motion, and CMS-driven News and Projects pages with dynamic filtering.

Paul Hulewicz, Artist Portfolio Website | Client project, Switzerland **2026**

- Built an 11-page gallery-style portfolio in Wix Studio; fixed hero and scroll-animation behavior across desktop, tablet, and mobile, applied client feedback, and led handover and training.

Luma Mind, Mental Health Support App | Personal project **2025**

- Designed 25+ high-fidelity, WCAG 2.1 AA-focused screens across 6 sections, including mood logging, breathing exercises, coping resources, community, and reminders. (Figma)

DesignNexus, UX Learning Platform | Hackathon project **2023**

- Ran a UX research sprint and designed 15+ high-fidelity screens for 4 user roles, covering onboarding, leaderboard, recruitment hub, and peer chat. (Figma)

EDUCATION

B.Tech, Computer Science and Engineering **Sep 2022 – May 2026**

SRM Institute of Science and Technology, Ramapuram, Chennai | CGPA: 9.078/10

CERTIFICATIONS

- Google UX Design Professional Certificate, Coursera (Apr 2023)
- Meta Front-End Developer Professional Certificate, Coursera (Sep 2023)
- Certification of Innovationship, IP Carnival 2024 (SSMRV College, Bengaluru & MIT Square London)

ACHIEVEMENTS & LEADERSHIP

- 2nd Place, TECTRIX 2023 UI Design
- 2nd Place, DATRONIX UI/UX FlutterFlow
- Top 2% nationally, HCL GUVI Career Carnival (~896 candidates)
- Core Design Lead, Texus '25: visual identity and branding for SRM's annual tech fest (1,000+ attendees)
- Graphic Designer, Content Domain Head & Treasurer, SKETCH Club (Jan 2023 – Jun 2025)
